BOZEMAN MEN TO DISCUSS
WAMI MEDICAL TRAINING PROGRAM
WEDNESDAY AT UNIVERSITY OF MONTANA

MISSOULA--

Two Bozeman men will discuss the WAMI medical training program and show slides about the program during the University of Montana Premedical Club meeting at 7:30 p.m. Wednesday (Dec. 5) in room 131 of the UM Science Complex.

Speakers from Bozeman at the Missoula meeting will be Marshall Cook, an associate professor of physical education at Montana State University who is administrative assistant for the Montana branch of WAMI, and Dr. M.O. Young, a physician and surgeon who is head of the WAMI Preceptorship Program.

WAMI, which symbolizes medical training for students in Washington, Alaska, Montana and Idaho, was established several years ago by the University of Washington School of Medicine, Seattle, under grants from the National Institute of Health and the Commonwealth Fund, an organization which specializes in medical science grants.

Donna Booth, coordinator of the premedical program at UM, said local physicians and interested students and laymen may attend Wednesday's meeting. A question-answer session will follow the discussion and slide presentation.

WAMI headquarters in Montana is at MSU.
